

## I & R, D working group notes (21.05.2015. 13.00-15.00):

Gap has been indicated in field of collecting information about how I&RD organized, sharing information in terms of researches, subjects of interest etc. in participating states.

- ICT solutions (website) should be good working platform rather than nice place with rough data.
- Appoint the moderator for website. We see lack of administrator activities.
- Good way to communicate – is write questions directly to participants. Direct communication, personal links.
- Forum place in webpage, where we can raise some questions with specific field of interests. New uploads should be automatically sent to work group members email.
- Head of working group should be able to publish publications on front page of website.
- Google+, open platform. Social webpage for working group (facebook, linkedin etc. ) might be challenging due to security reasons.

Lack of information sharing within the team: publications, working projects / field of interests etc.:

UA – forest fires, constructional behaviour in fire, Information system for decision makers, educational technology (e-learning etc), fire safety improvement in nuclear plants.

POL - CBRN (unknown packages), crisis management, risk perception by the population, safety behaviour (Quest city - game).

EE – e-learning, crisis management (risk perception), tests for the rescue work leader's knowledge, UCP training programme.

LV - e-learning, building constrictions behaviour in case of fire.

CAT – forest fires, nuclear safety, risk resilience, Leadership and team leading, urban fires.

BL – wild fires tactics, building constrictions behaviour in case of fire, maintenance and repair of fire equipment.

HU – disaster management (life cycle of construction (buildings, bridges etc.) (Horizon 2020)), Exchange of experts programme.

NL – firefighting safety, firefighting tactics, elderly fire safety awareness, risk perception.

Crisis management – HU, POL, EE, Catalonia

Risk perception – POL, EE, NL

Wildfires – UA, BL, Catalonia, NL

Public resilience – Catalonia, POL, NL

Building fire resistance – BL, UA, LV

Risk analysis – Catalonia, POL

E-learning – EE, LT, Catalonia, UA

CBRN – POL, UA

Safety behaviour (on-line game) – PL

FF tactics – Catalonia, BL, NL

Team building – Catalonia

Exchange of knowledge – call from HU

Flooding and bridges – HU looking for partners

Nuclear plants safety – UA,

Decision making and information for decision making – UA

Maintenance and repair of fire equipment – BL, HU

Training tool for rescue crew leaders.
